

1. THE BADMINTON GROUP

1.1. History of the Group

1.1.1. The Group was set up more than 10 years ago after the Angus Glen Community Centre was completed in 2006. There were only a few members volunteering to run the program. Since then, the Group has been growing steadily. It underwent several changes to deal with the growth demand for the program, earned its value resiliently and became the biggest group among the City's Community Centres. The program was owned and operated by the City, which in turn, recruited members as Conveners to help run the courts. This was called "Conveners" system. Nonetheless, it was run in the traditional way in a small-scale operation which came with growing pain of a typical closed group of about 120 members in 2014.

1.2. Incorporation of the Club 2014

1.2.1. In the Spring of 2014, a Steering Committee was formed to explore the possibility of forming a Club to manage Senior programs in North Markham. AGOAC was incorporated in May of 2014 and began recruiting members from existing programs including badminton. As an Incorporated Non-Profit Organization, AGOAC is an independent entity whose conduct is governed by its Constitution and Bylaws as well as applicable legislations and corporate principles. The first Partnership Agreement was executed in the summer of 2014 which signified a new era of senior programs in North Markham. The first election was held in September of 2014. The elected Board initiated changes to the Governance structure of AGOAC. Conveners are now replaced by Program Coordinators. Roles like Program Leads, instructors, court monitors and volunteers are recognized.

1.2.2. In order to comply with the Club's Constitution and Bylaws, changes in the registration system in the badminton program are required. Online registration was launched in the Fall of 2015. Continued efforts have been made to further automate the registration system by way of Google Form. Now the Group consists of about 200 AGOAC members. Only by progressive adoption of new technology and automation will the Group be able to achieve its mandate to become an open, transparent, fair and efficient one. With the help of AGOAC Web Tech, the Group is able to upgrade from using emails and Google Form and to, now, our own customized registration form which integrates technology to improve fairness and efficiency.

1.3. Need for the change

1.3.1. Due to the progressive growth of the Badminton Group, there is a need to revamp how the Group is managed in order to deal with the increasing complexity and work load.

1.3.2. With the utilization of the technology and forward vision, the Group is almost automatic in registration. In order to further enhance the administration of the Group, there is a need to form an Executive Committee to set up guidelines and formal structure within the Badminton Group.

2. STRUCTURE OF BADMINTON EXECUTIVE COMMITTEE (BEC)

2.1. The Structure of the Committee consists of Badminton Members who are AGOAC members and pay full annual bird fee and in good standing. It includes the following:
